HOW TO DOWNLOAD & INSTALL

CARDIOVISUAL

www.cardiovisual.com
info@cardiovisual.com

1 Tap the Apps icon in the bottom-right of the home screen. Swipe left and right until you find the Play Store icon. Tap it. (The first time you tap here, you may be prompted to sign in with your Google credentials and payment information.)

2 At the top of the screen, in the Google Play box, type “CardioVisual” and tap the magnifying glass on the keyboard to execute the search. You will see two search results. Be sure to click on the CardioVisual (one word) LLC app.

3 Tap the Install button to start downloading.

4 Once the download and installation are complete, you can tap the “Open” button in the Play Store listing, or tap the icon from the notification tray to open your app. Otherwise, the app will be accessible by tapping the Apps icon in the bottom of your home screen, assuming an icon hasn’t already been put on your home screen.
